KENTUCKY HARVESTER .- In our perambulations through the city, a few days since, we stepped in at the extensive Hardware establishment of Macy & HAMILTON where we found on exhibition the renowned Kentucky Harvester. But recently there has been a most valuable improvement made on these machines, which was suggested to the manufacturers by our i igenious friend HAMILTON, of the above firm. The improvement consists of a leaver placed within the control of the driver, by which the blades of the machine can be lowered or elevated at pleasure. The object of the improvement is to cut the grain or grass equal on fields where the land is undulating. We think the improvement is one of utility, and will doubtless add much to the former merits of the machine.

PATENT RIGHTS .- Almost with precise regularity, at the expirrtion of certain periods, we see some valuable patent offered to the public out of which fortunes are made as if by magic. In the Patent of the Crystal Oil excels every other invention for the production of a cheap light, and especially worthy as an economical lessing alike all mankind, the poor as well as the rich: much as many others, thereby making a saving of five-sixths of the entire cost, or in reality saving FIVE dollars out of every six dollars now expended. We hear the inventors intend to dispose of the patent rights for the States and Territories of the Union; if so, presenting a golden opportunity for investment, and undoubtedly many now possessing their few hundred will soon boast of their thousands as the result of it. It is indeed a rare chance, either for the small trader or heavy merchant, to acquire the control of a healthy permanent trade, vielding a greater profit in a few months than any ordinary business would in a long series of years. While we heartily condemn the mapleased to commend to the world a realite entirely worthy their confidence.-Botton Journal, April 22nd. apr28-2m(p. b.)

The Ladies! The Ladies! It is a well established fact, that fully one half of the male portion of our population, are seldom in the enjoyment of good health, or to use their own expression "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite.

To this class of invalids the Hoofland's German Biters are especially recommended. Their peculiar tonic and invigorating properties render them invaluable in

Kane's Arctic Expedition. Very few persons, while sitting at home comfortably their easy chairs, can form any adequate idea of the ardships endured by the beld men who followed the nented Dr. Kane on the Grinnell Arctic Expedition. Sesides the suffering caused by the inhospitable clinate, the intense cold brought on Rheumatism, stiffness of the Joints, Chilbiains, &c., and, in many instances the limbs and members of the daring explorers were frozen or frost-bitten. Their sufferings from these causes were very great and would have been unendurable but for the happy effects of a Liniment, invented expressly for their use by the celebrated Dr. A. G. Bragg, a plentiful supply of which was taken along with the expedition. This Liniment proved so valuable, and its merits so fully confirmed under the most enfavorable circumstances, that Dr. Bragg has been induced to commence its manufacture for the public. He calls it very properly "Bragg's Arctic LINDSENT." It is now for sale at all the Drug-stores, and will undoubtedly come into universal use.

Have, in many cases, defied the skill, heretofore of the best medial practitioners in the world, and many cases have been abandoned as incurable. Dr. J. WILLIAMS, Chemist and Pharamaceutist, after studying closely the practice of Drs. Abernathy and J. Johnston, England, and observing the nature of the disease in all its stages, during a sojourn in the southern and western portions of the United States, where it prevails to a greater extent than elsewhere, procured from South America, certain roots and herbs, from from South America, cectain roots and herbs, from which he prepared an "Elixir," which, after eighteen years' use in private practice, has proved itself more efficacious in the cure of Dyspepsy, than any medicine hat has ever been prepared in any age or any climfor the same purpose.

Having submitted it, with an explanation of its components, to a number of Physicians of Philadelphia, a-mong whom were the late livs. Joseph Hartshorne and J. C. Morton, it has received their entire approval, and many of the Medical Faculty are now not only prescri-bing it for their patients, but are using it themselves personally, and in their families. As a tonic, it is une

qualled, and its properties are of so invigorating a na-ture, that it is given with perfect safety and success to the most tender infants.

The "Elixir" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucus membrane of the stornach, and requires that only one dose be taken in twenty four hours, for confirmed Dyspepsy, can only be cared by gradually restoring the organs of digestion to a healthy state. The great success met with in curing the most aggravated cases of Dyspepsy, accompanied sometimes with a high grade of hypochomdria. panied sometimes with a high grade of hypochondria-sis, has established the most unbounded confidence in the curative properties of this "Elixir;" in corrobora-tion of which, read the following testimonials:— ATTESTATION—We having used Williams' "Anti-Dyspeptic Elixir" with the most perfect satisfaction and byspeptic barr with the most perfect satisfaction and success, take great pleasure in recommending it to all persons suffering with Dyspepsy, as we are fully con-vinced of its most estimable qualities in restoring the digestive powers, removing all pains and uncasiness, and imparting a healthy tone to the stomach. Dr. J. WILMARS—Dear Sir:—For afficen years previous to 1854, I suffered so much from Dyspepsy, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; medical aid was pro-cured for me, and every means resorted to without any relief, till I was advised to use your "Elixir," and from the time I began taking it I gradually improved till I was completely restored to health. The dreadful sufferings I endured from Dyspepsy I cannot describe; but I am confident that without the use of your "Elix-"I should be in my grave. I assert that I solemn
